

July 13, 2016

All school districts are required annually, prior to the start of the school term, to notify the parents and guardians of pupils enrolled in the district of the academic standards adopted by the school board for that year. It is also required that a notice identifying the academic standards adopted by the school board be included as an item on the agenda for the first school board meeting of the year. (DPI)

Wisconsin Heights Educational Standards: For the 2016-17 school year, the Wisconsin Heights School district has adopted the Common Core State Standards for Math and English/Language Arts. The district has also adopted the Wisconsin Model Academic Standards for all other subject areas. We will be piloting one unit per grade level/course offering of the Next Generation Science Standards for Science over the next year.
