

We're Shouting the News! Our Elementary Schools Have Been Recognized by the Wisconsin Department of Public Instruction and the Wisconsin RtI Center for Behavior at the Bronze level!

Congratulations, Black Earth Elementary and Mazomanie Elementary Community!

The Wisconsin Department of Public Instruction and the Wisconsin RtI Center has recognized our school for our implementation of Behavior at the Bronze level.

We're so proud of the work we are doing together, and we accept this award on behalf of our students, families, communities, and staff.

Together, we're successfully building a school-wide community that:

- closes achievement gaps
- consistently provides high-quality education for all students
- uses data to more quickly identify needs of students and provide support
- develops staff knowledge and skills to support all students
- nurtures relationships with students, families, and our community
- increases the number of students who will graduate ready for college or a career

District Administrator of Wisconsin Heights School District, Dr. Jordan Sinz, said "We are proud of the efforts of our staff and students to successfully utilize the PBIS system at our elementary schools. This program supports our district-wide goals of creating a positive learning environment for all."

National research shows that full implementation of an equitable system, like the one we are building, leads to improved student outcomes. Let's continue our journey!
